

THE PROBUS CLUB OF KELLYVILLE & HILLS INC.

Incorporated in NSW – Incorporation No. 1800778

Month: September 2019

Message from the President

September 2019

Welcome to our September Newsletter. Well Spring is here and our year is certainly moving fast.

The Probus year is from April 1st to March 31st each year. Although six months off, we must start planning for the annual election of Officers and Committee, which will be undertaken in the month before the Annual General Meeting.

As you will be aware, I am into my second year as Foundation President, a role I have thoroughly enjoyed and has given me a lot of satisfaction seeing OUR Probus Club grow from its Foundation Meeting on February 15th, 2018.

At our first General Meeting on March 8th, 2018, we had 32 members. I am pleased to advise we now have 106 members and we are in a strong financial position. All this was only possible, in no small way, to all the Committee and you, the members who have embraced our drive to make the Probus Club of Kellyville & Hills not just another Probus Club, but one that's developed its own personality of being friendly and vibrant.

I will not be standing for the position as President in the elections later in our Probus year.

It is time to pass the baton.

Now is the time to consider who should take over this very rewarding position next year (male or female). Your thoughts and nominations will be most welcomed.

Away from that for the moment, let me again thank you all for the great support you are giving our Committee by attending the numerous events they have arranged for your enjoyment.

Please remember to visit our [Website](#) regularly to keep up to date and enjoy the great photos.

Robert Dytor
President

He is the pioneer and first surgeon to introduce the micro invasive SuperPATH Hip Replacements in Australia and report on functional outcomes. His other areas of

expertise include Knee Replacement and Realignment surgery, Arthroscopic and Ligament Reconstructive surgery.

Dr Qurashi holds appointments at multiple public and private hospitals in Sydney. He has academic affiliations with the Universities of Sydney and Notre Dame and is at the forefront of research and development in his field.

Dr Sol was introduced to the meeting by a clinical sales support person, Siobahn Goldsbury.

We are extremely grateful to Dr Sol for giving up his valuable time to lead such an informative discussion on subjects that are often in the forefront of members minds.

In addition to being a really witty commentator, he was able to assist by answering many members questions. We would be surprised if our members do not take up his offer of having a chat about their future mobility direction.

Our "away" walk was a hit with the 17 members who attended.

The Kokoda Track Memorial Walkway is a living memorial and a principal site of commemoration honouring all those who fought for Australia during World War II.

A principal focus is on the sacrifices made during key Papua New Guinea battles which took place in 1942-43 along the Kokoda Track, at Milne Bay on the south-eastern tip of Papua, and at Buna, Gona, and Sanananda on the northern coastline.

The Walkway covers more than 800 metres from Rhodes Station to Concord Hospital in Sydney's inner-west, and runs along the mangrove-studded shores of Brays Bay on the Parramatta River.

At the centrepiece are magnificent granite walls bearing photographic images of the Kokoda campaign. There are 22 audio-visual stations along the Walkway, each describing a significant place or military engagement. The Walkway has been planted with lush tropical vegetation simulating the conditions of The Kokoda Track.
