

THE PROBUS CLUB OF KELLYVILLE & HILLS INC.

Incorporated in NSW – Incorporation No. 1800778

Month: September 2021

Message from the President

Dear Fellow Probud Members,

Watch for information regarding a November meeting.

Spring has arrived and hopefully by mid-October we will have some more freedom with the easing of some restrictions.

With the increased vaccination rate, we can look forward to the easing of restrictions and hopefully, we will be able to restart activities in November, but we must abide by our Government guidelines.

I urge all members to get vaccinated, as it will be difficult to gain access to venues and clubs without being fully vaccinated.

Kerri, Ron, Lorraine and Jackie will be in contact when we are able to arrange social activities. The walking group will hopefully restart mid-

October and Kevin will confirm start date.

Kevin and I have enjoyed a few picnics with friends and have discovered many picnic areas in the Hills Shire. It was great to be outdoors enjoying the sunshine.

If you know of anyone having difficulty getting out, give them a call or let Coralee know and she will follow up.

Stay safe and follow the guidelines of NSW Health.

Keep safe
Faye

## Growing plants in small spaces *Tony Myatt*

Where space is limited, a simple raised bed can easily be constructed from materials readily available from Bunnings – who will cut components to suit your design. For those who do not wish to make their own, a commercially available raised bed is the VEGEPOD which comes in various sizes. To quote their advertising;

“A huge benefit of the Vegepod Container Gardens is that they can be easily raised to waist height. Covers make growing veggies easy, by providing a microclimate that promotes rapid growth and higher yields”.

Vegepods are available in a range of sizes (from \$189 - \$449). Making a similar home constructed version is cheaper but it is a good idea to look at a Vegepod first so that a self-watering reservoir can be built in.

*Sending our best wishes for a speedy recovery to Pauline Home, who has had emergency Appendectomy surgery in September.*

## PASSWORDS – a better alternative

We are told that finding the world's most common passwords is as easy as visiting Wikipedia and hackers who have difficulty will use software to crack them. The best software takes less than a second to try a complete dictionary methodically testing different combinations of letters, numbers and symbols.

The best defence is to use a passphrase. A phrase such as *tusk banana alabaster cottage* could be cracked eventually but it would take six thousand trillion trillion years to crack using the best of today's software.

Passphrases are easier to remember than passwords, especially if you personalise them. The creators of [www.useapassphrase.com](http://www.useapassphrase.com) suggest that randomness does not come easily to humans. Perhaps the best solution is to get suggestions from such a website and then add a few words of your own – perhaps you stayed at a cottage where there were many alabaster ornaments!

## Every Week

### Walking Group

**Cancelled until further notice.**

We meet at the Centenary of Anzac Reserve, Wrights Road, Kellyville, as we did last year in the early days of Covid-19 restrictions.

After our walk, we will adjourn to the Cherry Bean coffee shop in the Kellyville Village shopping centre, opposite the oval/park, as we use the outside tables, pets are permitted. Should it be raining, those interested can go straight to the coffee shop.

Other suitable locations are being investigated for future walks. Suggestions {within reason} are welcomed.

Please contact [Kevin Carey](mailto:Kevin.Carey@pckh.org.au) or call 0417 246 218 to join the next walk.
